

Location: Ocean Falls, BC
 Owner: Ministry of Agriculture and Lands
 General Contractor: Vancouver Pile Driving Ltd.
 Start: July 2009
 Completion: August 2009
 Value: \$ 300,000

Project Description:

- Remove the public safety threat posed by partially collapsed causeway structure. The work included the complete removal of the causeway, as well as the associated damaged river bank approach and submerged river debris. The piling Based causeway was a timber and concrete decked structure complete with timber sidewalks and railings.
- Restoration and stabilization of the waterway banks on the North end of the causeway.
